31 August 2022

Market Comment

The class B (EUR) share of Dynasty Euro Yield posted a performance of **-0.9%** in August, outperforming its benchmark index (**-2.4%** for the 50% iBoxx euro corporate, 50% Markit iBoxx EUR High Yield Main).

While the peak of the credit market dislocation occured on June 30th 2022, financial markets were coming to their senses in July and early August back to more reasonable prices (even still undervalued). Indeed, as the semi-annual results period is going on, most of companies positively surprised markets displaying wider margins as expected in the current inflation context. Nonetheless, Jerome Powell's speech in Jackson Hole late August reminding FED's rigorious guideline put an end to this rebound.

The average YTM of investments is at +7.7%. The average credit sensitivity is 2.9 with an average rating of BB-. The fund is invested through 49 positions.
