## Opinion

We have audited the financial statements of DYNASTY SICAV S.A. (the "Company") and of each of its sub-funds, which comprise the statement of net assets and the statement of investments in securities and other net assets as at 31 December 2020, and the statement of operations and the statement of changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company and of each of its sub-funds as at 31 December 2020, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

## Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Company in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Other information

The Board of Directors of the Company is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

## Responsibilities of the Board of Directors of the Company for the financial statements

The Board of Directors of the Company is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Company is responsible for assessing the Company's and each of its sub-funds ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Company either intends to liquidate the Company or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### **Responsibilities of the “réviseur d’entreprises agréé” for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d’entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Company.

- Conclude on the appropriateness of Board of Directors of the Company use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s or any of its sub-funds ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the “réviseur d’entreprises agréé” to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d’entreprises agréé”. However, future events or conditions may cause the Company or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Notes to the Financial Statements

Annual report and audited financial statements as of 31 December 2020  
DYNASTY SICAV S.A.

## Note 1 – Significant accounting policies

The Financial Statements of the SICAV have been prepared and presented in accordance with Luxembourg regulations relating to undertakings for collective investment, including the following significant policies:

### a) Valuation principles

The Administrative Agent shall assist the Company and the Management Company to determine the Net Asset Value and the Net Asset Value per Share.

The Net Asset Value per Share of each Class of Shares in each subfund is expressed in the Reference Currency of the Class of Shares.

The Net Asset Value per Share of each Class in each subfund is calculated on every Business Day. Furthermore, the Net Asset Value per Share of each Class in each subfund as per the year-end is calculated on the last Luxembourg Business Day of the year. Consequently, the last Luxembourg Business Day of the year has the same Valuation Day for the year-end and the month-end for the month of December.

The value of the assets is determined as follows:

- The value of any cash on hand or on deposit;
- Bills and demand notes and accounts receivable, prepaid expenses, cash dividends, interest declared or accrued and not yet received, all of which are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof;
- Securities and money market instruments listed on a recognized stock exchange or dealt in on any other regulated market that operates regularly, is recognised and is open to the public, are valued at their last available closing price on the principal market on which such securities are traded. The last available closing price used for the bonds is the bid price;
- In the event that the last available closing price does not, in the opinion of the Board of Directors, truly reflect the fair market value of the relevant securities and money market instruments, the value of such securities will be defined by the Board of Directors of the Company based on the reasonably foreseeable sales proceeds determined prudently and in good faith;

- Securities and money market instruments not listed or traded on a stock exchange or not dealt in on another regulated market are valued on the basis of the probable sales proceeds determined prudently and in good faith by the Board of Directors of the Company;
- The liquidating value of futures, forward or options contracts not traded on exchanges or on other regulated markets shall mean their net liquidating value determined, pursuant to the policies established by the Board of Directors of the Company, on a basis consistently applied for each different variety of contracts. The liquidating value of futures, forward or options contracts traded on exchanges or on other regulated markets shall be based upon the last available settlement prices of these contracts on exchanges and regulated markets on which the particular futures, forward or options contracts are traded by the Company; provided that if a futures, forward or options contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors of the Company may deem fair and reasonable;
- Investments in open-ended investment funds, either listed or not, are valued on the basis of their last available net asset value per share/unit;
- All other securities and other assets will be valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors of the Company.

### b) Valuation of forward foreign exchange contracts

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date. Realized or unrealized gains or losses are recorded in the statement of operations.

### c) Net realized gain (loss) on sales of securities

The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

### d) Conversion of foreign currencies

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing

spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate prevailing on the day of acquisition.

*e) Accounting of securities' portfolio transactions*

The securities' portfolio transactions are accounted for the bank business day following the transaction dates.

*f) Income recognition*

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

*g) Combined financial statements*

The combined financial statements of the Company are expressed in EUR. The various items of the combined statement of net assets and the combined statement of operations as of 31 December 2020 of the Company are equal to the sum of the corresponding items in the financial statements of each subfund.

*h) Cross subfunds investments*

As per 31 December 2020 the subfunds DYNASTY SICAV S.A. – Dynasty Global Convertibles has the following investments in other subfunds of DYNASTY SICAV S.A.:

### Note 9 – Uncontrollable Event

In March 2020, the World Health Organization declared the outbreak of COVID-19 to be a Pandemic. Although progress has been made towards the end of 2020 in managing this Pandemic, including through the continuing development of vaccines, it remains uncertain for how long and how severe the Pandemic will continue to globally and regionally impact the economy. This raises continuing uncertainties in relation to the volatility of asset prices of the Company and the valuation of assets covered in this report.

The Board of Directors and the Investment Managers continue to monitor the management of the Pandemic by governments and hence the economic impact on the portfolio and the Company itself. There is no evidence that the 'going concern' assumption made by the Board of Directors when preparing the financial statements of the fund is inappropriate.

### Note 10 – Applicable law and authoritative language

The Luxembourg District Court is the exclusive forum for all legal disputes between the Shareholders and the Company. Luxembourg law governs all aspects of the relationship between the Shareholders and the Company. However, in matters concerning the claims of investors from other jurisdictions, the Company can elect to make itself subject to those jurisdictions.

Statements made in the Prospectus are based on the laws and practice in force at the date of the Prospectus in the Grand Duchy of Luxembourg, and are subject to changes in those laws and practice.

The English version of the Prospectus is the authoritative version and shall prevail in the event of any inconsistency with any translation hereof.

## Note 11 – OTC-Derivatives

If the Company enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Company enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Company is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depository in favour of the Company. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depository or within their subdepository/correspondent bank network may result in the rights or recognition of the Company in connection with the security to be delayed, restricted or even eliminated, which would force the Company to fulfil its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.
