

Investment Objectives

The investment objective of **Dynasty Corporate Bonds 0-2.5** is to provide positive returns over the short term. The fund's pragmatic and opportunistic approach enables us to produce strong risk-adjusted returns.

Market Comment

Volatility persists amid banking fears, with a new fall of a regional bank in the US, First Republic, which was finally bought by JP Morgan. Moreover, the month was also full of quarterly publications from companies that remain solid. As a reminder, we have no financial bonds in our portfolios.

The performance of the class B (EUR) share of the **Dynasty Corporate Bonds 0-2.5** fund remains flat in April.

During the month, we initiated new positions such as the french **Nexity 0.25% 2025** and **Air-France KLM 0.125% 2026 (Put2024)** and finally, the British **Diageo 0.125% 2023** in spirituous.

The fund is invested at **93.9%** through **26** holdings. The average YTM of the fund stands to **5.1%** with an average credit sensitivity of **0.8** while the fund offers an average rating of **BBB-**.
