

Investment Objectives

The objective of the Sub-Fund is to provide positive returns over the short term, through the selection of a portfolio of fixed income asset classes, markets and fixed income financial instruments offering an attractive yield considering the issuer's credit risk.

Market Comment

During October, equity and bond markets continued to decline (-3.0% for equities and -1.1% for bonds). As the Israeli-Palestinian conflict intensified and internationalized, new concerns emerged.

In this context, the performance of the class I (EUR) share of the **Dynasty Chahine Capital High Yield 2028** fund reached an almost stable performance of -0.1% in October. Thus, the fund is up by +1.2% since its inception (3 April 2023).

During the month, we participated in a primary market issue by French hotel group **Accor 7.25% Perp (Call 2029)** offering an attractive coupon of 7.25% and initiated a new position in **Picard 5.375% 2027**, the French frozen food retailer.

At the same time, we strengthened our position in **Stena international 7.25% 2025**, a shipping company.

The average YTM of the fund stands at 6.9%. The average credit sensitivity is 3.2 and the average rating is **BB+**. The fund is invested through 63 positions.
