

Investment Objectives

The investment objective of the fund "Dynasty Global Convertibles" is to achieve long term capital growth by investing mainly in convertible bonds.

Market Comment

In April, the good performance of the US economy and quality results significantly delayed the FED rate cut, which had a negative impact on equity markets (-3.8% worldwide, -4.2% in the US and -3.2% in Europe).

In this context, the class B (EUR) share of the **Dynasty Global Convertibles** fund proved its resilience in April, posting a performance of **-0.7%** versus -2.1% for the global convertible universe.

In this environment, we significantly reduced the delta of the fund. In order to do so, we took profits on some of our positions such as **Ivanhoe Mines 2.5% 2026**, **BE Semiconductor 1.875% 2029** and **Palo Alto 0.375% 2025**.

Simultaneously, we switched out **Schneider Electric 0% 2026** to buy **Schneider Electric 1.970% 2030**, offering us a more convex profile while maintaining exposure to this quality company.

The delta of the fund stands at **29.3%** at the end of April. The fund is invested through **56** convertibles. The average credit sensitivity is **1.8**, with an average portfolio rating of **BBB**. The average YTM of the fund stands at **1.7%**.
